

Please realize that I pay for XM and should be able to listen to weather and traffic channels. This is very helpful in my business and I want the choice to be able to do this in the future. I do not think it should not be up to the National Association of Broadcasters to dictate what I am permitted to hear. I respectfully ask the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that I am paying for and want. Respectfully submitted,

Craig A. Graybill
